Ⅴ	＊３０単語以上書いたものを評価の対象とします。 Having a part-time job as a student has both good and bad points. A good point is that students can earn their own money and learn how to manage it. It helps to become an adult. They can also gain work experience which is helpful for the future. However, a bad point is that working too much can be tiring and leave little time for studying. It might be hard to balance work and school. Overall, having a part-time job is helpful, but it’s important to set a good schedule and not overwork.
